

Evidence-Based Mental Health

Contents

February 2017 Volume 20 Issue 1

Perspective

- 1 Twittering on about mental health: is it worth the effort? *M Jayaram, L Moran, C Adams*

Clinical reviews

- 4 Pharmacological and non-pharmacological treatment of adults with ADHD: a meta-review *F De Crescenzo, S Cortese, N Adamo, L Janiri*

- 12 Current status of electroconvulsive therapy for mood disorders: a clinical review *D Kolar*

Old age psychiatry

- 15 Cognitive-behavioural therapy for non-motor symptoms of Parkinson's disease: a clinical review *I Koychev, D Okai*

Statistics in practice

- 21 Exploratory trials in mental health: anything to learn from other disciplines? *S Trelle*

Commentaries

Forensic psychiatry

- 25 Impact of gun law reforms on rates of homicide, suicide and mass shootings in Australia *P Brown*

Outcomes

- 26 Involvement of patients in planning their future treatment may reduce compulsory admissions to hospital *S Kisely*
- 27 Evidence of ocular side effects of SSRIs and new warnings *J Kirkham, D Seitz*

Pharmacological interventions

- 28 Antipsychotic adjunctive therapy to mood stabiliser should be continued for 6 months after remission of a manic episode *K Hatta*

Psychological interventions

- 29 Cognitive-behavioural group therapy for youth with high-functioning autism spectrum disorders demonstrates modest effects on social responsiveness *E A Storch*
- 30 Significant methodological flaws limit conclusions drawn by authors of a recent PTSD mindfulness study *D J Lee, C W Hoge*

Letters

- 31 Letter in response to Drs Lee and Hoge's commentary *C R Erbes, P Thuras, K O Lim, M A Polusny*
- 32 Randomised or not? *D Lufi, J Parish-Plass*

Further commentaries

Electronic pages

- e1 Prevention of depression and anxiety: is the whole better than the sum of the parts? *S Merry, S Hetrick*
- e2 Disruptive behaviour may hinder the acquisition of daily living skills for youth with autism spectrum disorder and disruptive behaviour *E A Laugeson*
- e3 More ACTIONS needed to reach a consensus on adjunctive antidepressant therapy for negative symptoms of schizophrenia *S Akhondzadeh, E Moazen-Zadeh*
- e4 Short web-based guided self-help intervention prevents the onset of a major depressive disorder in adults with subthreshold depression *L Bolier, B Boon*
- e5 Mindfulness-based cognitive therapy delays depressive relapse across demographic subgroups *G Meadows, F Shawyer*
- e6 Reduced all-cause mortality with antipsychotics and antidepressants compared to increased all-cause mortality with benzodiazepines in patients with schizophrenia observed in naturalistic treatment settings *J M Rubio, C U Corell*
