

# Evidence-Based Mental Health

## Contents

May 2017 Volume 20 Issue 2

### Perspective

- 33** What is the impact of a research publication?  
*S Fazel, A Wolf*

OPEN ACCESS

### Clinical review

- 35** Psychosocial interventions for self-harm, suicidal ideation and suicide attempt in children and young people: What? How? Who? and Where?  
*G Cox, S Hetrick*

EDITOR'S CHOICE

### Original article

- 41** Implementing tools to support evidence-based practice: a survey and brief intervention study of the National Elf Service across Oxford Health NHS Foundation Trust  
*L Z Atkinson, A Forrest, L Marriner, J Geddes, A Cipriani*

EDITOR'S CHOICE

### Statistics in practice

- 46** Reporting guidance considerations from a statistical perspective: overview of tools to enhance the rigour of reporting of randomised trials and systematic reviews  
*B Hutton, D Wolfe, D Moher, L Shamseer*

EDITOR'S CHOICE

### Evidence-based case conference

- 53** Prognosis of delirium  
*T A Furukawa*

### Expert commentary

- 55** Immigrant women and women with learning disabilities have complex mental health needs and service use in the perinatal period  
*K Ayre, H Khalifeh*

### Commentaries

#### Causes and risk factors

- 58** Daily use of high-potency cannabis is associated with an increased risk of admission and more intervention after first-episode psychosis  
*M Large, O Nielssen*

#### Outcomes

- 59** Hypersomnia: an overlooked, but not overestimated, sleep disturbance in bipolar disorder  
*K A Kaplan, R Williams*

- 60** Relative to SSRI users, SSRI–statin users have fewer psychiatric hospital contacts and no increase in suicidal behaviour or all-cause mortality  
*C Andrade*

### Pharmacological interventions

- 61** Short-term adjunct of topiramate to antipsychotics in schizophrenia improves the psychopathology and has weight maintenance  
*T Kishi*

### Psychological interventions

- 62** Targeted psychological interventions may prevent depression in children and adolescents  
*E Watkins*
- 63** Simpler therapy may successfully treat adolescents with anorexia nervosa  
*S Agras*

### Letter

- 64** Changing response rates in clinical trials of depression: how did the introduction of DSM-III and DSM-III-R influence the outcome?  
*K N Fountoulakis*

### Further commentaries

#### Electronic pages

- e7** Largest study to date shows overall use of antipsychotics in pregnancy does not appear to significantly increase the risk of congenital malformations  
*S Grigoriadis, M Peer*
- e8** Uncertain association between depression and stroke risk in a Chinese mega-study  
*E J Brunner, I R Weinreb*
- e9** Mood Zoom could be a promising tool for daily mood variability monitoring, potentially differentiating bipolar from borderline patients  
*E Isometsä*
- e10** Cognitive–behavioural therapy can prevent transition to psychosis in ultra-high-risk participants in the long term  
*J-P Miron, A Abdel-Baki*

### Correction

- 54** Correction
