Review: mood stabilisers monotherapy as effective as combination therapy for treatment of acute bipolar depression in studies with some limitations. *Evid Based Mental Health* 2010;**13**:127. The article was published with the following incorrect sentence: "MTM did not increase risk of suicidal behaviour compared with placebo (4 RCTs, 863 participants, RR 6.35, 95% CI 0.77 to 52.22)." The sentence should be changed to: "MTM did not increase risk of suicidal behaviour compared with combination therapy (4 RCTs, 863 participants, RR 6.35, 95% CI 0.77 to 52.22)."
