Contents

Perspective

93  How can we optimise learning from trials in child and adolescent mental health?
    N Axford, V Berry, J Lloyd, K Wyatt

96  Universal prevention of depression at schools: dead end or challenging crossroad?
    P Cuijpers

Original research

99  Effectiveness and cost-effectiveness of universal school-based mindfulness training compared with normal school provision in reducing risk of mental health problems and promoting well-being in adolescence: the MYRIAD cluster randomised controlled trial

110  The impact of mindfulness training in early adolescence on affective executive control, and on later mental health during the COVID-19 pandemic: a randomised controlled trial

August 2022 Volume 25 Issue 3

117  School-based mindfulness training in early adolescence: what works, for whom and how in the MYRIAD trial?

125  Effectiveness of universal school-based mindfulness training compared with normal school provision on teacher mental health and school climate: results of the MYRIAD cluster randomised controlled trial

135  Do mindfulness-based programmes improve the cognitive skills, behaviour and mental health of children and adolescents? An updated meta-analysis of randomised controlled trials
